

# Wood. The Original Renewable!

Remember, heating your home with wood is a  
renewable and sustainable energy source.

The ACT Government should be **embracing** modern,  
clean-burning, low emission wood heaters  
... **not banning them!**

By heating our homes with sustainably sourced wood,  
we are doing our part to save the planet for future generations.

**Protect your right to light. Sign the petition.**

Australian  
Home Heating  
Association Inc.
